

Strategies for success in a new era of global trade

PBB's Trade & Compliance Services provide the solutions you need to facilitate trade throughout North America and around the world. With customs rules and supply chain security regulations constantly in flux, PBB helps your business meet the increased requirements of importing and exporting today.

Our customer-focused trade and compliance experts provide strategic thinking, ensuring your business is fully compliant with the ever-growing myriad of customs regulations. With PBB you can reduce risks and liability, avoid penalties, secure your supply chain and protect your access to global markets and suppliers.

Why use PBB's Trade & Compliance Services?

- Thorough customs compliance assessments and reviews of trading practices result in identifying irregularities and opportunities prior to audit.
- Proven penalties management systems: eliminating, avoiding or greatly reducing penalties through voluntary compliance or prior disclosure.
- Representation and consultation during each phase of the audit, ensuring proper record keeping, internal control, valuation and classification of goods.
- Expert advice on trade strategies to address evolving supply chain security regulations, including advance notification, FDA bioterrorism rules and C-TPAT / PIP.
- Trade function analysis ensuring system linkages among departments (Sales, Marketing, Purchasing, Logistics, Shipping, Accounting), producing a consistent, efficient and integrated trade strategy.
